

In late December 2017, a couple in Iowa was checking on their 50 beehives when they discovered a tragic incident. The hives had been overturned and hacked apart and the equipment had been thrown out of the shed and smashed. This destruction caused the death of about half a million bees and approximately \$60,000 in property damage. Nearly three weeks later, two boys (12 and 13 years old) who are allegedly responsible for the damage were arrested. The charges against them include criminal mischief, offenses to an agricultural animal facility, and burglary. Since they are still minors, they will be charged in juvenile court where they face up to 10 years in prison and fines up to \$10,000 if convicted. Indeed, it is expected that the two boys will be convicted, because they don't have alibis for that time and the evidence against them is strong.

Two boys was caught trying to destroy beehives. If founded guilty, they are facing a possible 10 year jail in juvenile detention along with 10,000 in penalties.

In December 2017 a couple in Iowa found their beehives vandalized. A half a million bees died and there was \$60,000 in property damage. The police arrested a 12 and a 13 year old boy for this crime. Because they are minors they will be charged as juveniles. They didn't have Alibis and there's strong evidence.

In December 2017, a couple found severe damage to their 50 beehives. They were vandalized, which resulted in the deaths of half a million bees along with damages to equipment. Two young boys, 12 and 13, were charged weeks later. They have no alibi, and they will face juvenile detention of up to 10 ten years each and a \$10,000 fine.
