

In late December 2017, a couple in Iowa was checking on their 50 beehives when they discovered a tragic incident. The hives had been overturned and hacked apart and the equipment had been thrown out of the shed and smashed. This destruction caused the death of about half a million bees and approximately \$60,000 in property damage. Nearly three weeks later, two boys (12 and 13 years old) who are allegedly responsible for the damage were arrested. The charges against them include criminal mischief, offenses to an agricultural animal facility, and burglary. Since they are still minors, they will be charged in juvenile court where they face up to 10 years in prison and fines up to \$10,000 if convicted. However, it is expected that the two boys won't be convicted, because they still insist on their innocence and the evidence against them is weak.

In december a couple in iowa discovered there 50 beehives had been hacked apart and equipment ruined. This killed around half a million bees and 60,000 in damages. Three weeks later they arrested a 12 and 13 year old as suspects. Because they are young they would be charged as juveniles and face up to ten years in jail and 10000 dollar fine. They are not expected to be convicted because the evidence against them is week

there were a couple who took care of bees and one day a couple of people killed the bees and caused about 60,000 in property damage.Turned out it was two boys and now they face ten yeeears in juvenile and up to 10,000 in charges.

In 2017 a couple discovered their 50 beehives were raided and destroyed. Two boys were charged with criminal mischief and are charged in Juvenile courts. They will face 10 years in jail and get fined 10000 dollars. They still said they did not do it and unlikely to be convicted. There were around a million bees that died as the result

In Iowa, a 12 year old and a 13 year old destroyed a bunch of bee hives, causing a lot of damage. An older couple discovered what they did. The kids will be tried in juvenile court and face up to ten years in prison. They have no alibi and evidence against them is strong.

A couple that raised bees had their bees killed by two boys. The damages were up to 60,000. The two boys will face time in juvenile and 10,000 in fines.

The boys damaged bees that resulted in a loss of 60,000. They will spend time in jail and pay some fines.
